

Moses Brown School
250 Lloyd Avenue
Providence, RI 02906

6th Grade Science Teacher
Long Term Substitute

Moses Brown School is a co-educational independent day school for nursery through twelfth grade. Moses Brown, a Friends school, exists to inspire students to reach their full intellectual and spiritual potential. We engage students in a rich academic curriculum, a broad offering of arts and athletics, and a daily life strongly rooted in the Quaker values of community, equality, and service. We affirm the Quaker belief that there is an inner light in each person that influences our decision-making and leads us to the truths we seek. We consider virtues of simplicity, integrity, group wisdom, and respect for differences paramount to helping students of all faiths and backgrounds discover their missions in the world.

Moses Brown is an equal opportunity employer and deliberately seeks to maximize the diversity of the school (in terms of class, gender, ethnicity, race, religion, sexual orientation, abilities/disabilities, and language).

The primary responsibility of this position is to teach four sections of science, advise 10-12 middle school students, work collaboratively with Middle School Team and Department colleagues, and communicate routinely with parents, colleagues and students. For this particular position, knowledge of middle level best practices and experience working with middle school children is critical.

Qualifications: Applicants must have a bachelor's degree from a four-year accredited institution. Two to five years of teaching experience is preferred, although not a requirement for application. We seek candidates who are passionate about their desire to teach, advise, coach, and learn from middle students, and eager to embrace and forward the Quaker mission of the school.

The position is for January 22 through June 14, 2019
